

Ali Bey Premier Waterpark Resort highlighted by Polin equipment

Ali Bey Premier, a five-star beachfront resort hotel located in Antalya, Turkey, features a large waterpark with equipment designed, manufactured and installed by Turkey-based Polin Waterparks and Pool Systems.

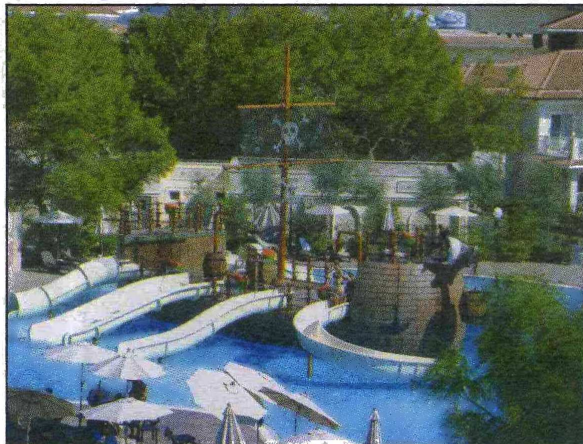

Having opened mid-June 2010, the resort's waterpark is situated along the Mediterranean coast and offers 26 custom-designed waterslides available only to hotel guests. The waterpark also contains a first class open buffet restaurant and a cafe serving Turkish and international cuisine.

The waterpark at Ali Bey Premier offers rafting rides, inner tube rides, bowl rides, family raft ride, plus a themed interactive waterplay structure, a unique pirate ship, splash pools, several activity pools, a major kids pool and lots of water attractions and slides for small children.

The majority of the rides in the park are out of Polin's Inner Tube Rides and Extreme Rides Group. Polin's unique Magic Shine and Natural Light effect systems add great value to this series. There are three important rides that are in the extreme slides series — are Space Boat, Family Rafting and Uphill Flying Boats. They are unique rides with their distinctive design and ride layout. The extreme slides contain different slide experiences: vertical drops, classical ride paths, uphill ride route and centrifugal ride route. Water spray jets are commonly used and they provide a frictionless surface on most of these giant slides.

In addition, all the slides at the park are RTM (Resin Transfer Molding) manufactured.

The park offers plenty for younger visitors including a Snake slide, Turtle slide, Rabbit slide, Elephant Slide, Frog Slide, Mushroom, Whale fountain and Aquatower. Polin's pirate-themed multi-level waterplay structure — Pirates of the Mediterranean — is specially designed for Ali Bey Premium. It includes interactive play elements throughout the structure along with slides, tipping buckets, water cannons, net climbs and

various other waterplay features.

"In the continually evolving waterpark industry, the world's premier waterpark resorts like Ali Bey Premier Waterpark are after the most attractive, exciting, appealing rides," said Polin Marketing Manager Sohret Pakis. "And

Polin is committed to providing the best quality product and service through investing in research and development and will continue to further expand its RTM line while introducing new signature rides and innovations in fiberglass production."
