The record breaking  
trade show

## SPLASH! ENVIRONMENTAL AWARDS

All the winners  
and finalists

**INFLATABLE GUIDELINES**  
Call for Code of Practice

## **The King Cobra**

**POLIN Waterparks and Pool Systems has launched the King Cobra.**

**Polin says the waterslide offers one of the most “intense” riding experiences of the industry while having great visual impact and spectator appeal.**

**With its unique design configuration, fibreglass theming, colouring and its unique riding path, it will surely be a lively attraction at water parks.**

**Its main feature is the configuration which enables riders in two double-tubes to race through a circular path with twists and turns, followed by a darkened section and an unexpected eight metre drop at a 50-degree angle. They then enter the valley section at the same time, still racing each other.**

**For more information email [sohret.pakis@polin.com.tr](mailto:sohret.pakis@polin.com.tr).**
