Polin Honored for Achievement in Human Resources

Kariyer.net, Turkey's largest online recruitment company, presented **Polin Waterparks** with the 15th Annual Respect for Humans Award for treating job applicants "at every level of hiring with the utmost dignity and consideration." Candidates who applied for jobs at Polin played a key role in determining whether the company should win the award—nominated companies were ranked on their human resources processes. Polin is the only Turkish manufacturing company to receive the award this year.
