Polin Fusion rides debut in France

CAMPSITE Le Chateau Vieux in Saint Hilaire de Riez, France, has introduced two new combination waterslides from Turkish specialist Polin Waterparks.

Polin designed a new 1,000sq.m aquatic attractions area at the five-star resort, which includes a Sphere and Blackhole Combo attraction.

"Guests in two-person rafts enter the sphere with a startling drop, then shoot from side to side and back and forth, before exiting via another surprising drop," Polin stated. "Their path then takes them along the Blackhole's enclosed, undulating slide path."

The second combination waterslide, a Space Hole and Aquatube, sees guests experience one of the longest speed rides available.

Like all of Polin's attractions, the slides at Campsite Le Chateau Vieux have been constructed using Resin-Transfer Moulding (RTM) technology. The ground-breaking process creates a perfectly smooth, shiny and superior quality waterslide.
