Social Responsibility

As Polin Group, we are aware that social responsibility projects that contribute to the well-being of the world we live in and to the peace of society are very important. For this reason, we closely follow the evolving needs of the world and work meticulously to ensure that everything we do will benefit society.

We set goals related to the environment, human rights, health, education and other social responsibility issues and run campaigns directed at these areas. We know the importance of entertainment and value contributing to securing a livable world while providing this entertainment.

Sustainability

The Future is Green
So are we!

To secure a brighter future, we have been working towards sustainability since 2006, focusing our attention on the realities and wonders of the world around us and on building a greener future for future generations!

Leading the Way to Sustainable Entertainment

With innovative solutions in engineering, energy and water intelligence, and net-zero consultancy, we are dedicated to creating carbon-free entertainment parks. Our commitment to a sustainable future is unwavering.

Sliding into the Greener Future

- **75%** reduction in styrene emissions by using the **L-RTM** process in waterslide manufacturing.
- We maximize the benefits of our renewable energy source with **Natural Light Effects**.
- We use **energy-efficient wave pools and river systems**.
- Prevent water loss by **90%** splashing "**riser**" and reduce water, chemical, and energy consumption "run-out" alternative.
- Our latest slides feature **precision sensors and automation**, achieving up to **60%** energy savings, while insulated outdoor tube slides reduce energy loss by **90%**.
- We offer eco-friendly slides made from **recyclable thermoplastic resin** and **thermoset resin** containing **48%** waste PET, emphasizing the importance of plastic recovery and valorization.
- **U-Texture** technology reduces chemical usage and waste; additionally, we recommend using **reflective colors** to combat global warming."
- The **water control system** saves up to **70%** of energy by adjusting flow rates, while the **tracking system** optimizes energy and water consumption.
- **Regenerative filtration systems** reduce water waste by up to **90%**, cut energy consumption by **50%**, and reduce chemical usage by **30%**.

Trusted by Leaders

"We believe that what makes Polin Group unique is the products themselves, as they are well designed and manufactured at the highest standards. Polin Group products have been installed in various waterparks, amusement parks & family entertainment centers and have been enjoyed by people around the world. Their designs are outstanding compared to other rides manufacturers. They are able to adapt to the customer's requirements. We will recommend Polin Group to other entrepreneurs and also share the experience we had working with Polin Group."

Konghart Tantichirasakul
Deputy Managing Director, Santorini Water Fantasy, Thailand

"Our motivation to work with Polin Group was the reputation they have for offering excellent priced and superior quality products. In addition, the outstanding technical team they have for the development of new products, the consistent leading position they have maintained in the industry, and their ability to meet deadlines were decisive factors in entrusting the development of our projects to this company. All the teams we worked with were always readily available and had the technical expertise to meet the needs we had in the development of our equipment. During the assembly work of the equipment, their availability and commitment always remained steadfast, even when minor setbacks arose."

Paulo Jorge Martins Santinha
Director, Slide & Splash, Portugal

"To get inspiration for the project, we visited countless theme parks and waterparks in Europe and elsewhere before finally selecting Polin Waterparks to equip our undercover water paradise after a long tender process that involved many top manufacturers from around the world. Polin made a strong impression during the process. They convinced us that the attractions we would be getting from them offered the best combination of quality, safety, and price."

Peter Dudolenski
Global City Holdings, Park of Poland

"It was a great pleasure to work with Polin Group. Their products are the best and gave us great added value. We worked with Polin Group for many of the parks that belong to our company. We recommend them to others and are excited to see the many new and amazing attractions that are sure to come from Polin Group."

Albert Olivet
Park Manager, Aspro Parks, Spain

The Leading Single Source Supplier

PolinGroup

Single Source Composites Supplier

Best Technology Based Product Solutions

Polin Composites provides high-level service to many sectors, including **aviation, construction, automotive, hotel, urban equipment, and transportation**. Our experienced team proactively monitors the service we provide to the industry and our customers. To provide you with the best service, we work with many distinguished partners in the composite industry worldwide. We are the European leader in the field of composites with our R&D studies and the innovations we have brought to the sector.

World's First Fully Transparent Composite Waterslide

Polin Composites is a PolinGroup company.

Pools, Filters and Pool Equipments

Fipol Composite Pools produces top of the line pools, filters and pool equipment thanks to the years of experience of the group companies in the composites industry. With its **new, innovative production techniques**, Fipol is planning to bring a new approach to the industry, one that will introduce new fiberglass-based solutions to customer demands.

Motorboat Design and Manufacturing

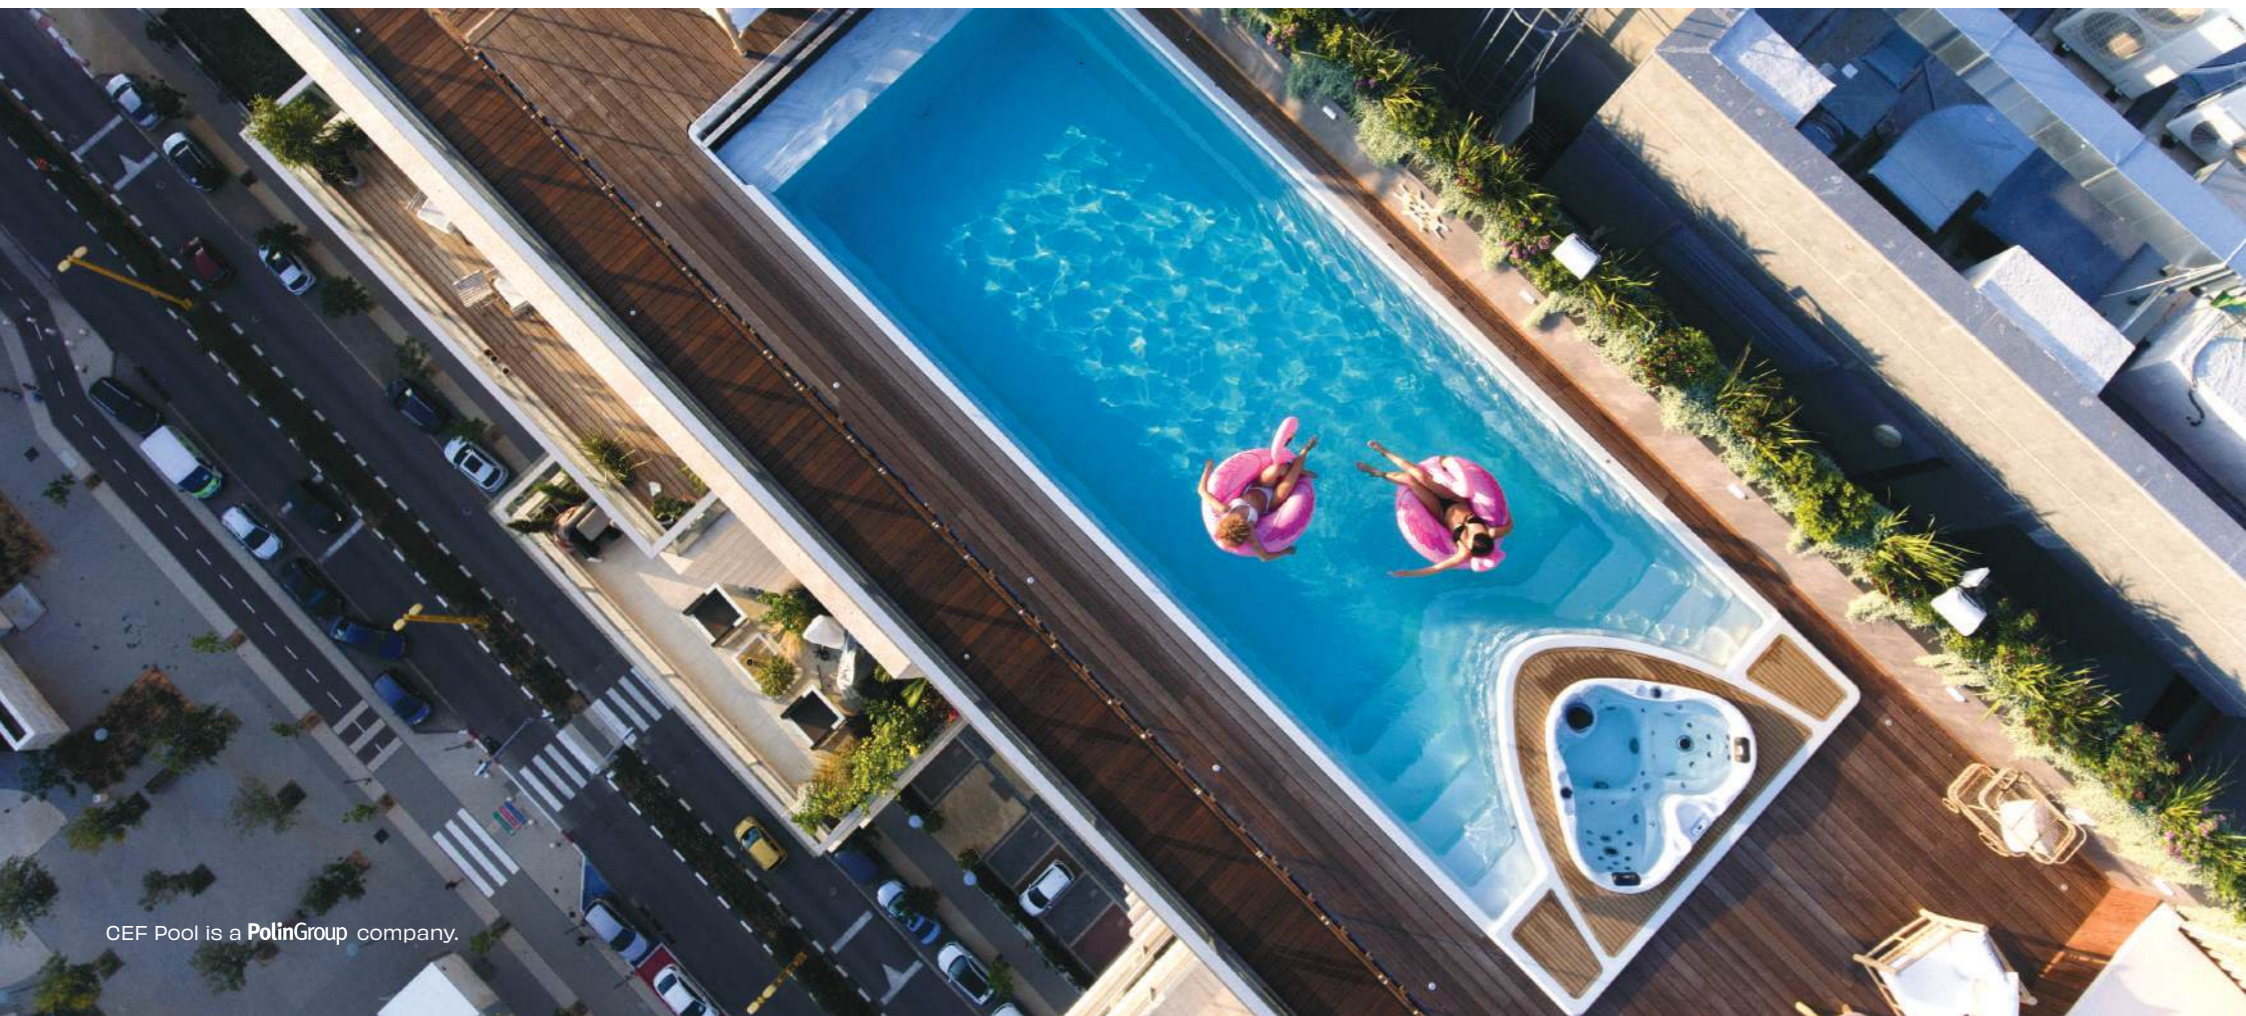

As one of Europe's largest composite manufacturing companies, **Fipol Marine** is an expert in manufacturing specially designed motor yachts for true motor yacht enthusiasts, brings an **innovative approach to Motorboat Design and Manufacturing**.

Easy Installation High Surface

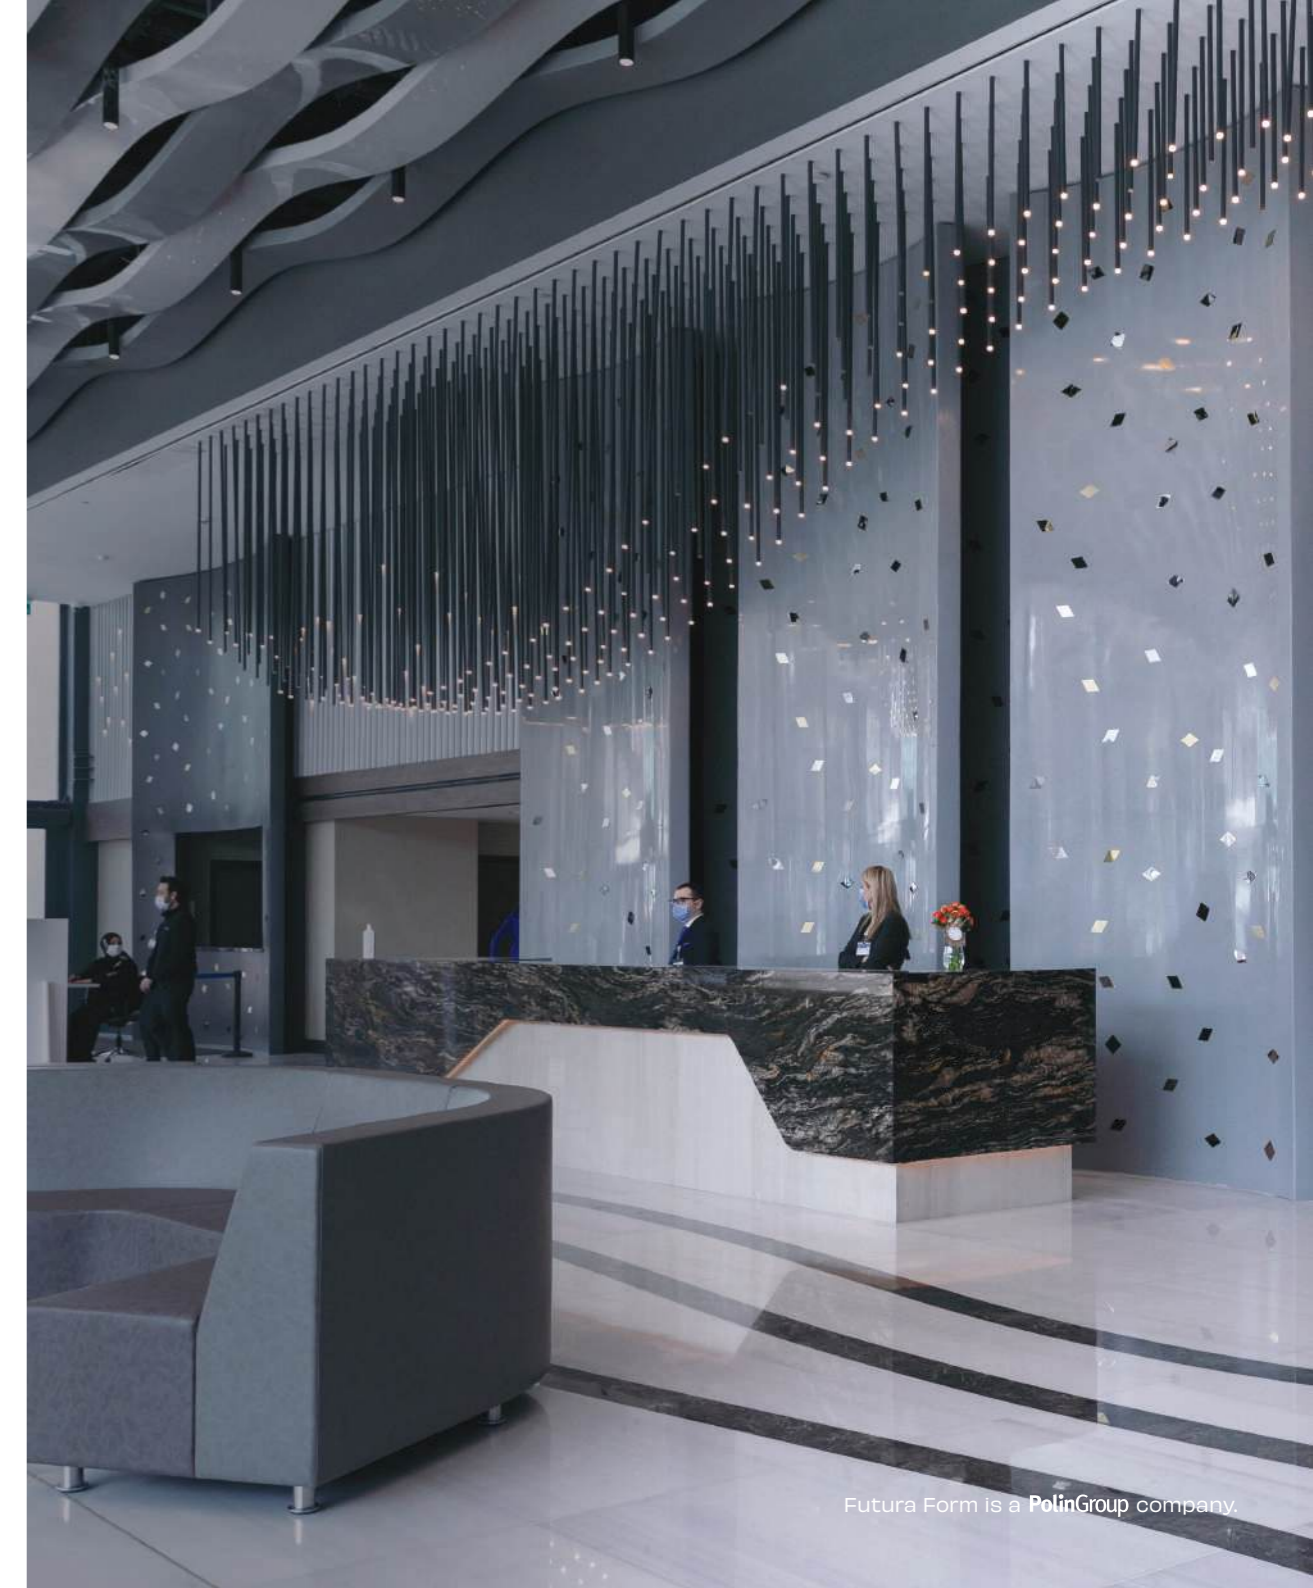

As a result of the partnership between Fipol Pool, one of the Polin Group companies, and Compass Europe, the leading composite pool manufacturer in Europe, **CEF Pool** was established to produce high-quality pools. Carbon ceramic pools produced by CEF Pool are installed in Europe by Polin Group and Compass Europe. These pools distinguish themselves from their competitors with their easy installation, high surface quality, and durability. Viewing customer satisfaction as a core aspect of its business, CEF Pool **offers the best possible solutions for its customers.**

Wide Range of Custom Composites Product

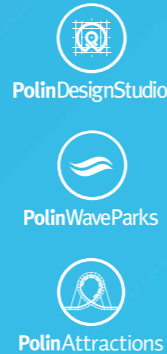

Futura Form provides design, engineering, manufacturing, project management and after sales services with it is experienced, enthusiastic team. Thanks to its **high-tech skills and comprehensive knowledge about raw materials**, Futura Form is able to develop and produce a wide range of custom composite products.

By combining our experience with the team's design, engineering, and production skills, we have created unique venues, developed many projects and designed custom products for various industries, including the automotive, defense, transportation, and sanitary industries, to name several. Futura Form produces a wide range of products, using innovative technology and the highest quality materials available.

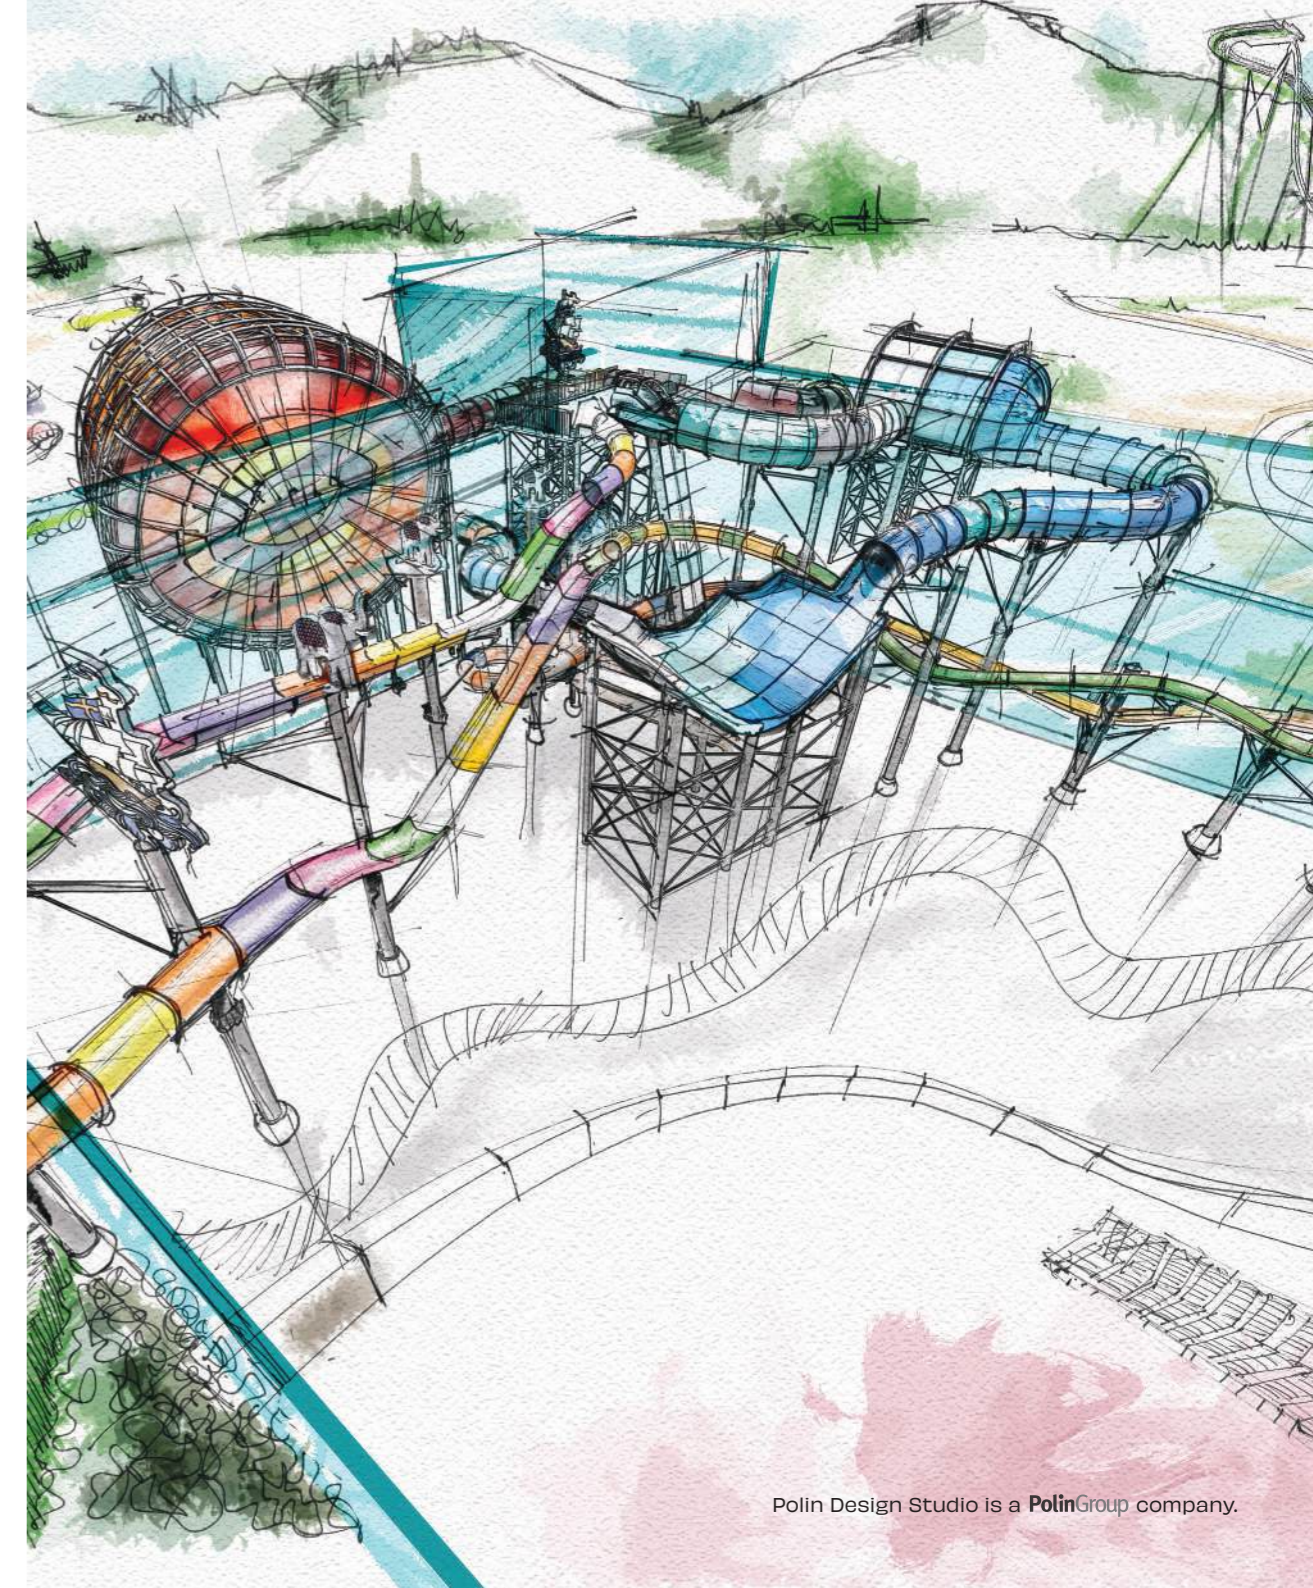

Single Source Amusement Supplier

A to Z Solutions for Distinctive Design

Polin Design Studio designs the most sophisticated attractions, **working carefully with the unique characteristics of each project** to maximize the site potential and ensure success. Polin Design Studio has an experienced, talented and creative staff of professional architects and engineers dedicated to the amusement industry. With nearly half a century of experience, Polin Design Studio offers its customers expertise on the locations, topographies, climates, and capacities of all the parks it designs.

Polin Design Studio offers a wide range of services, including storytelling, master planning, concept design, schematic design, visitor flow studies, capacity calculations, architecture and structural features, landscape architecture design, conceptual attraction design, and art direction, to create unique venues.

Design, Engineering, Manufacturing and Installation

Polin Waterparks is the world's leading waterpark supplier and signature waterslide designer. Polin Waterparks has completed **more than 4000 waterpark projects in 120 countries** around the world and is the biggest water slide supplier in Eurasia.
