THE EXPERIENCE

POLIN WATERPARKS PRESENTS

# WONDER FLUX

This innovative waterslide transports guests to whole new world! Polin's brand-new waterslide features a single or double person ride that has a river-like meandering and relaxing path, but just wait! It will render your visitors speechless with it's special dark tunnel offering wonders through an advanced projection mapping technology. This system allows to show different themes randomly. This means; every time you slide, you can experience different wonders!

**Just hold tight and watch the show!**

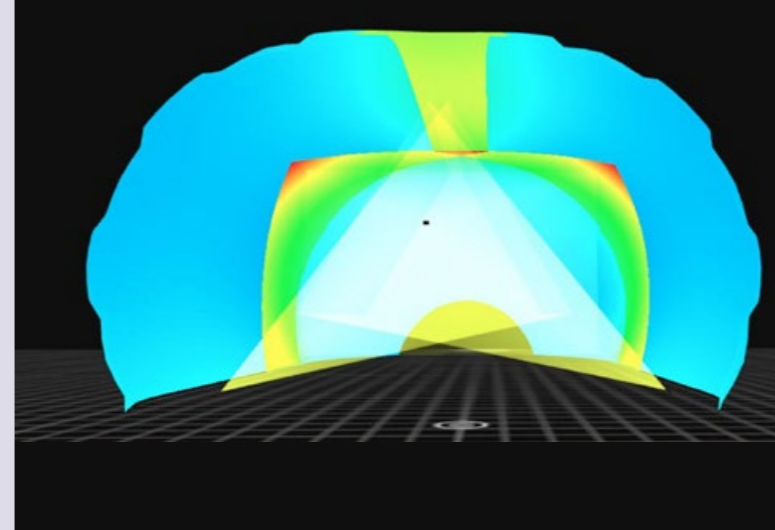

## THE WORLD'S FIRST WATERSLIDE PROJECTION TUNNEL

### TUNNEL DIMENSIONS

L 14.95 m x W 7.96 m x H 6.18 m  
(Approx L 49' x W 26' x H 20')

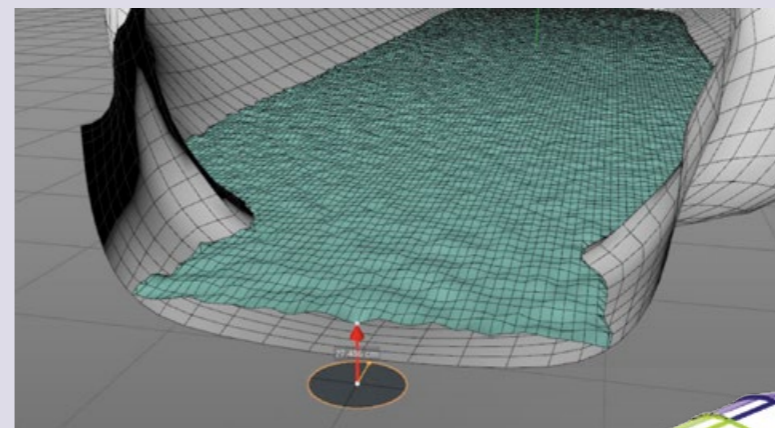

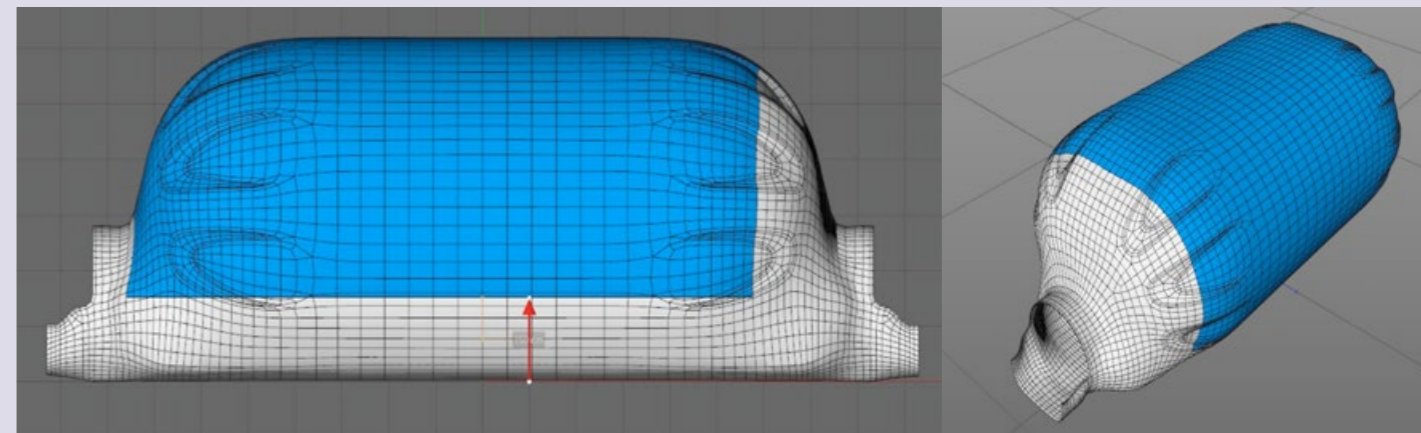

WONDER FLUX  
EXPERIENCE  
WONDERS

### PROJECTION MAPPING

Projection Mapping uses special softwares and equipment for creating large and colorful environments. Light is mapped (adapted) onto any surface. More formally, projection mapping is "The display of an image or video on a non-flat surface"

### PROJECTION AREA

The lowest point, including blaser projection, is only 120 cm (47") higher than the waterline. This provides a wider projection area, giving guests a more submersive experience. The projection system is placed strategically around the outside of the tunnel in various size enclosures to provide the desired image effects.

### WATER & FLOW

The water level in the middle of the tunnel is almost 30 cm (12"). And, since water also reflects light, the ample quantity of water enhances the total experience to a full 360-degree sparkling environment.
